BELLEVUE MEDICAL CENTER 2ND CONFERENCE ON PEDIATRICS AND NEONATOLOGY

14 April 2018 | Bellevue Medical Center, Mansourieh - Lebanon

Welcome Letter

Again, for the second time in Bellevue Medical Center, the bridge that we built between Lebanese Pediatricians and the team of Metrohealth Medical Center in Cleveland, Ohio, USA seems more reinforced for one Goal: A good application of the medicine art in pediatrics.

In this meeting we'll discuss the hot topics on Neonatal Nephrology & Endocrinology and the preparation of Premature infant for his outcome.

Let us take benefit from the experience & Knowledge of our speakers and try to enrich our practice for better care of our patients.

I will catch the occasion to thank all participants and all who support us for the success of this event: Lebanese Pediatric Society, Bellevue Medical Hospital, our sponsors and again our SPEAKERS.

See you in BMC – PN

Coordinator of BMC PN
