Nephrology and Hypertension

Association of the
Child with Kidney Diseases

“Pediatric Nephro Urology Update and Kidney Transplantation”

Friday, 10 January 2014 - Hôtel-Dieu de France University Hospital

WELCOME MESSAGE

Dear Colleague,

For the first time in Lebanon a scientific activity combining Nephrology and Pediatric Urology will be held on January 10, 2014 at Hôtel-Dieu de France, with the collaboration of all the Lebanese scientific societies concerned.

Many key practical matters you encounter on a daily basis will be tackled by our imminent speakers from Europe. An interactive discussion will also follow each presentation.

We invite you to book your calendar as we will be honored by your participation to this CME credited event, rich in new medical information and updates.

Looking forward to welcoming you!

The Organizing Committee
